## ***EARLY CHILDHOOD EDUCATION PROGRAM***

ECEP is a program, which provides the fundamental knowledge and skills needed to work effectively with young children. Academic courses are combined with field placements, which enable students to gain an understanding of child's physical, emotional and cognitive needs.

Visits to various primary and pre-primary schools and excursions are arranged. Students are given a spectrum of exposure and experiences which are appropriate for their program of study. This prepares them to face the challenges & their future world of work.

### ***PROGRAM OBJECTIVE***

- To help prospective teachers in understanding the principles of development of Early Childhood Education.
- To acquaint prospective teachers with learning behavioral patterns of the children.
- To develop pedagogical skills among prospective teachers.
- To develop the professional skills among prospective teachers to be competent to teach children at early childhood level.
